

## Notes on this example report for the JCS

This is an example of a stats report generated mostly with randomly data. The graphs and analysis here presented a merelly examples coming from our limited minds, but the possibilities here are pretty much endless for the MoT and others to generate narratives based on true stats.

## REGIMENTAL RAID Data report - 505th Ressugence regiment

This report comprises Information gatehred from the deployments undertaken by the helldivers of the 505th Ressurgence regiment. The stats team thanks the collaboarion of hosts on supplying the screenshots data, and we also would like to acknowledge the time invested by the memebers of the stats team on gatehrting, cleaning and curating this data. This information is gathered from the final mission screenshots as well as information provided by the fireteam hosts.

The raid was undertaken in Vernen Wells, before 0:00 hr deployment time, this was the state of the planet

Helldivers Active	22,715
Missions Completed	10,780,448 (88.1%)
Missions Failed	1,451,670 (11.9%)
Mission Dive Time	1Y 3M 4D 2h 13m
Shots Fired	18,839,209,152
Projectile Hits	19,861,291,779
Hits to Shot Ratio	1.05425295 : 1
Kill to Death Ratio	33.97900275 : 1
Dead Automatons	3,295,912,570
Dead Helldivers	96,998,508
Accidentals	10,642,300
Accidentals to KIA Ratio	0.10971612 : 1

after the last raid deployment was finished, the state of the planet was as follows

PLANET STATISTICS	
Helldivers Active	18,867
Missions Completed	10,793,563 (88.1%)
Missions Failed	1,452,058 (11.9%)
Mission Dive Time	1Y 3M 4D 17h 21m
Shots Fired	18,860,153,881
Projectile Hits	19,885,419,621
Hits to Shot Ratio	1.05436146 : 1
Kill to Death Ratio	33.99814565 : 1
Dead Automatons	3,301,015,531
Dead Helldivers	97,093,988
Accidentals	10,653,251
Accidentals to KIA Ratio	0.10972101 : 1

A total of 55 deployments were undertaken, a total of 165 missions, 1.0 percent of the missions

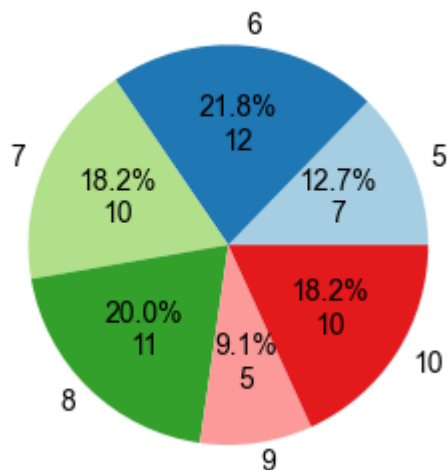

The raid had a 100.0 percent success ratio, while overall the helldivers in Vernen wells had 97.0 percent success

## Deployment graphs

Here we present the stats regarding the operations undertaken in this regimental raid

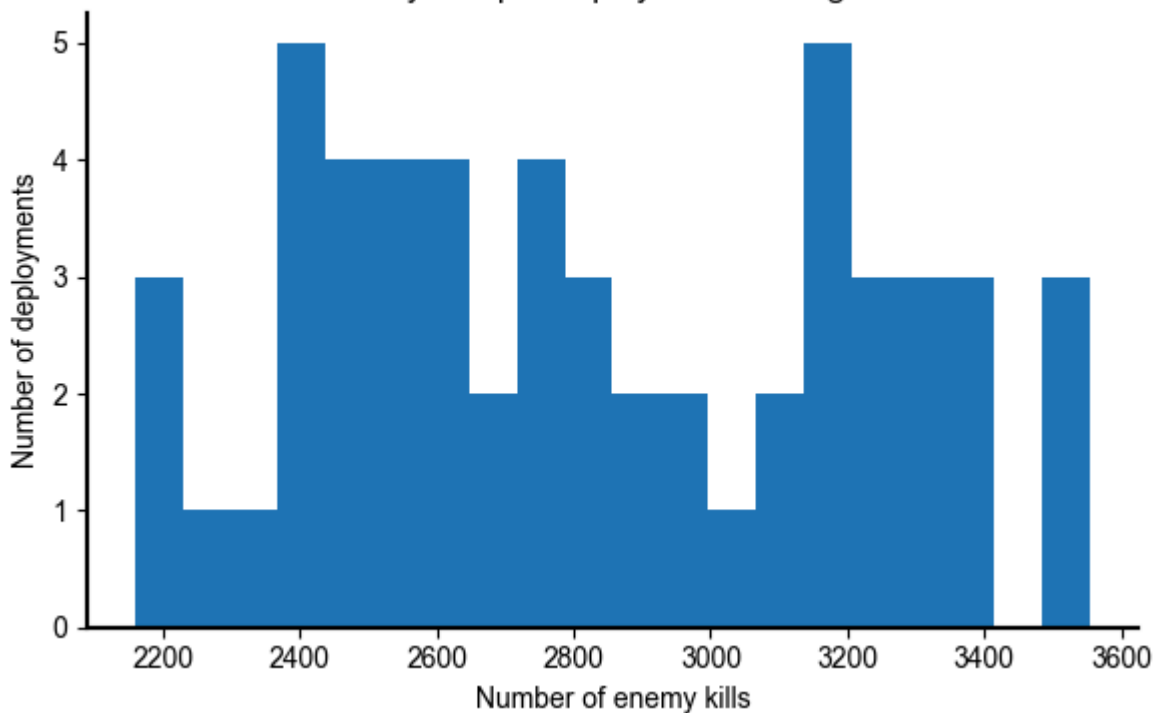

A total of 55 deployments were undertaken by our helldivers. Below you will find the distribution of missions per difficulty and respective stats

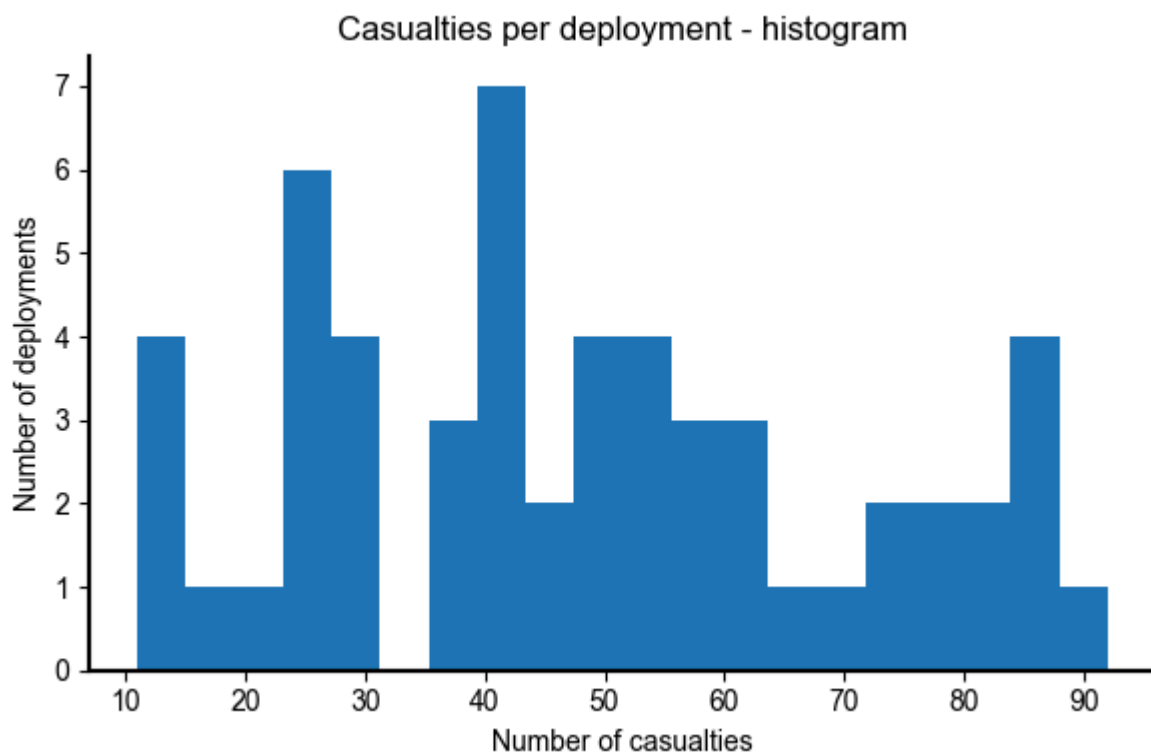

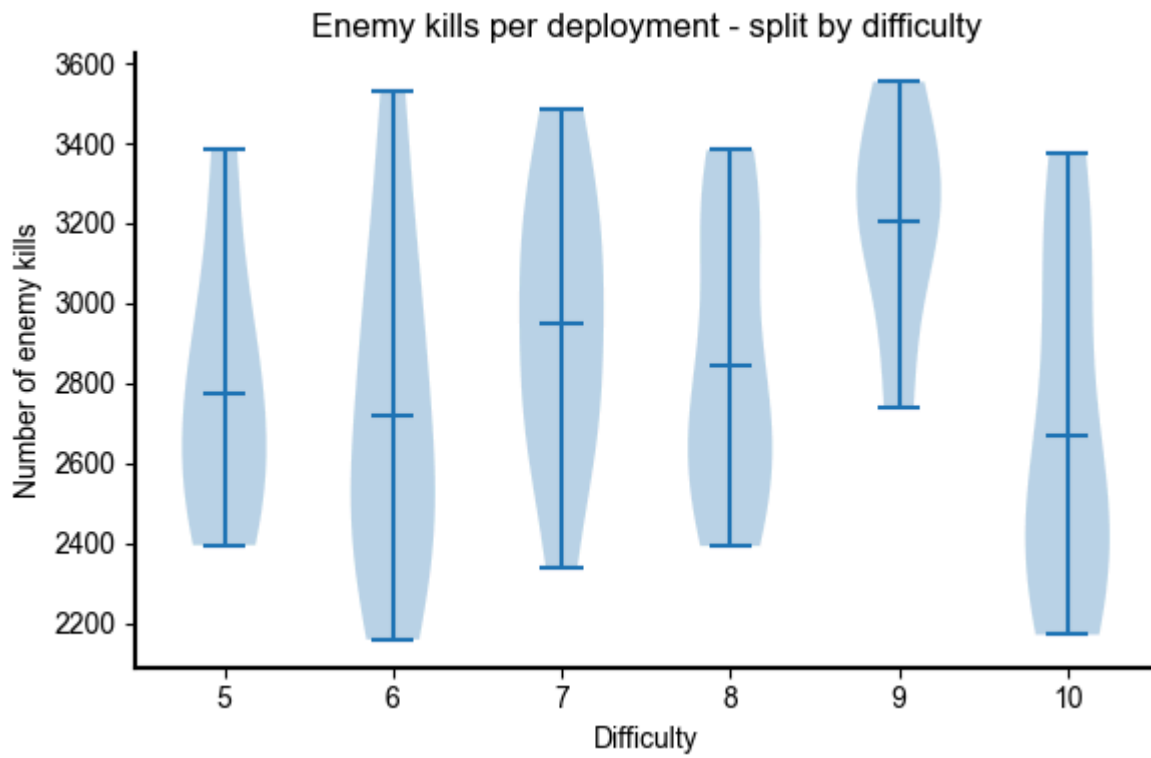

Number of Deployments - split by difficulty

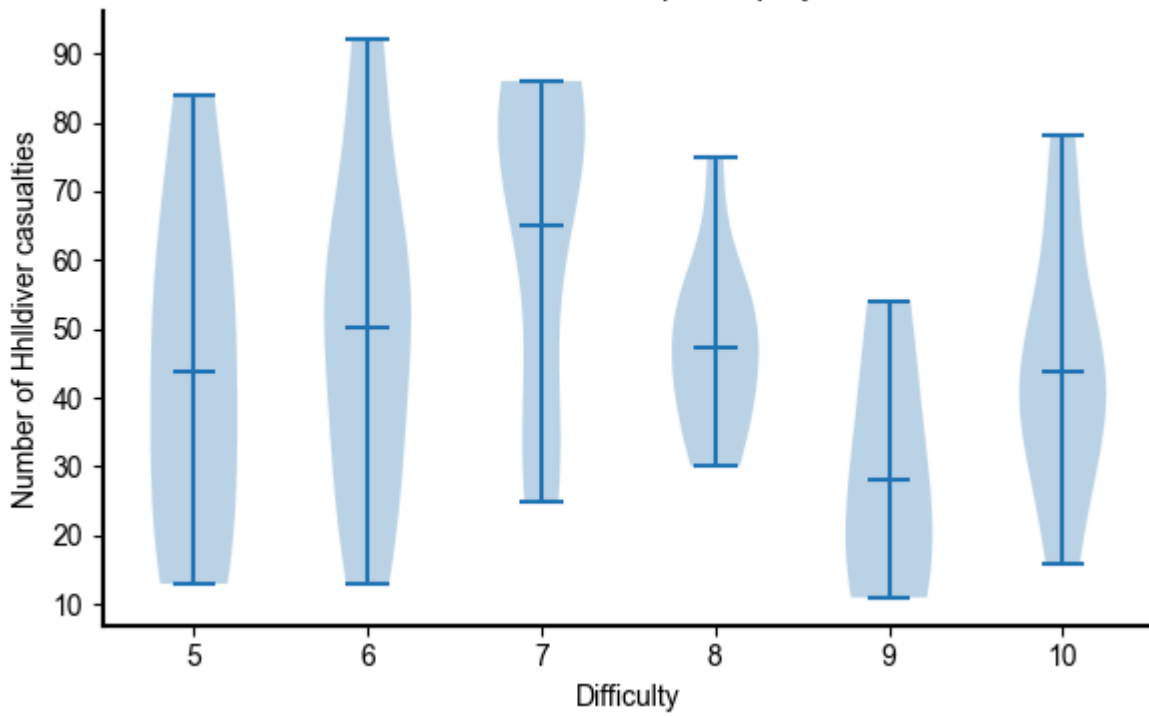

A total of 155552 enemies were killed, an average of 2828.0 per deployment

Enemy kills per deployment - histogram

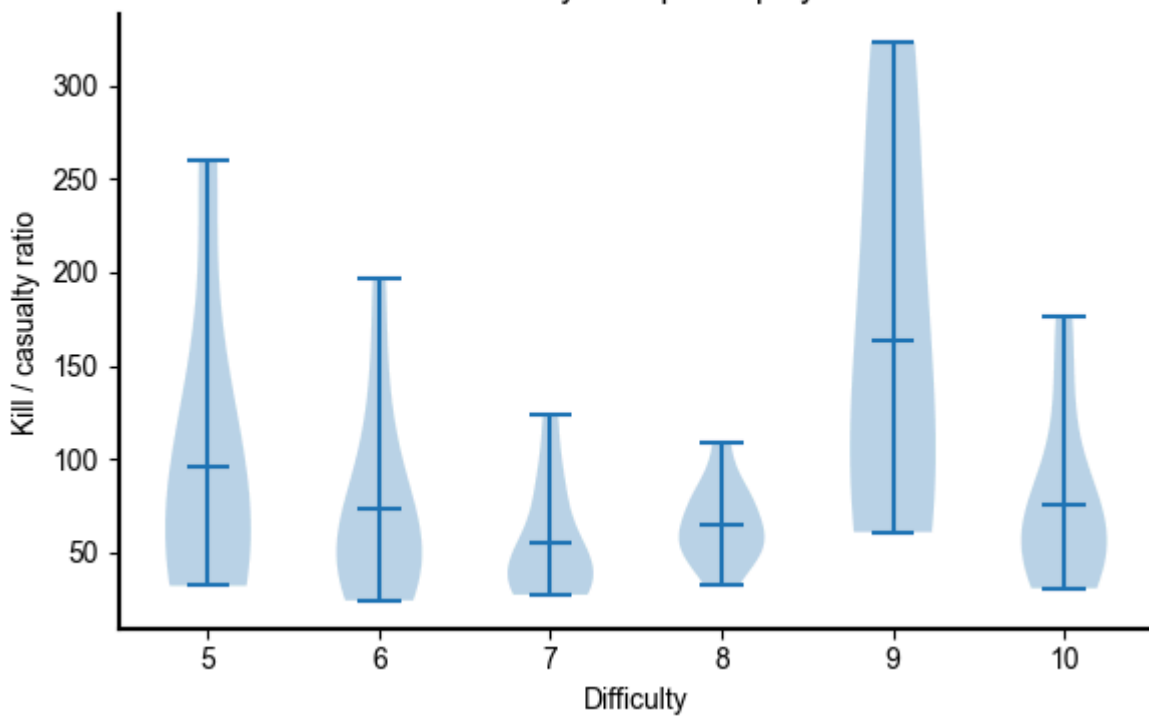

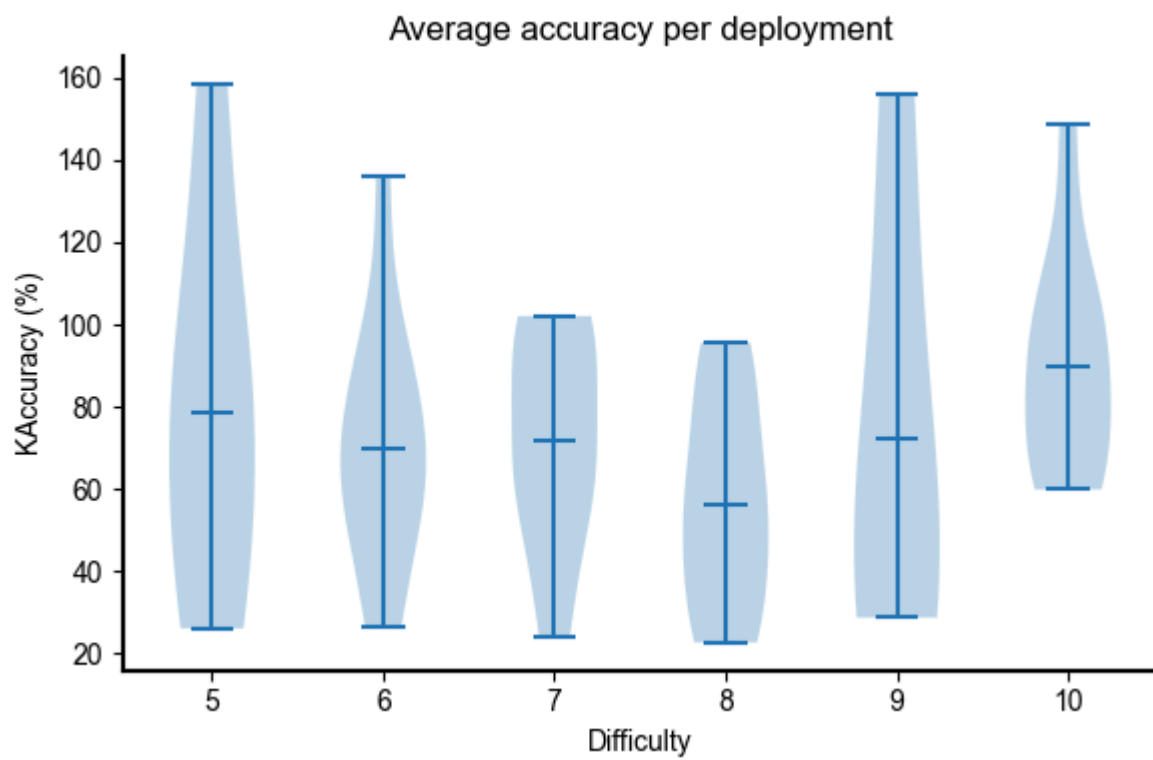

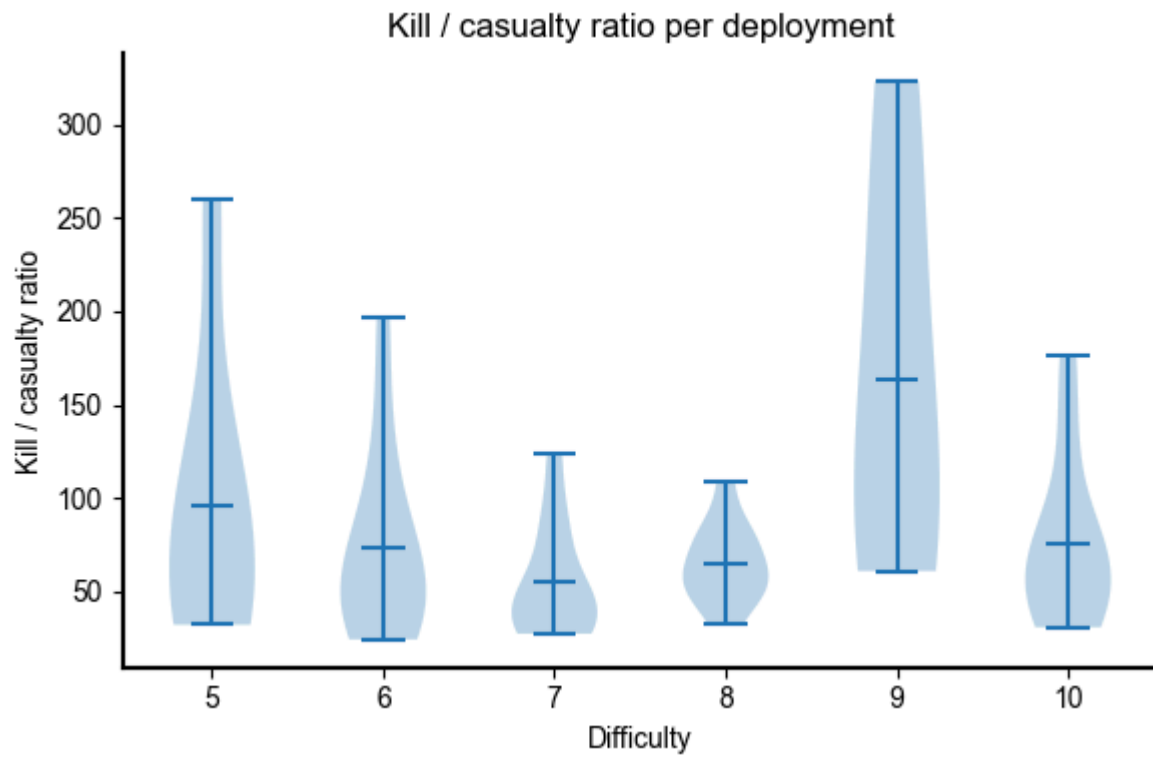

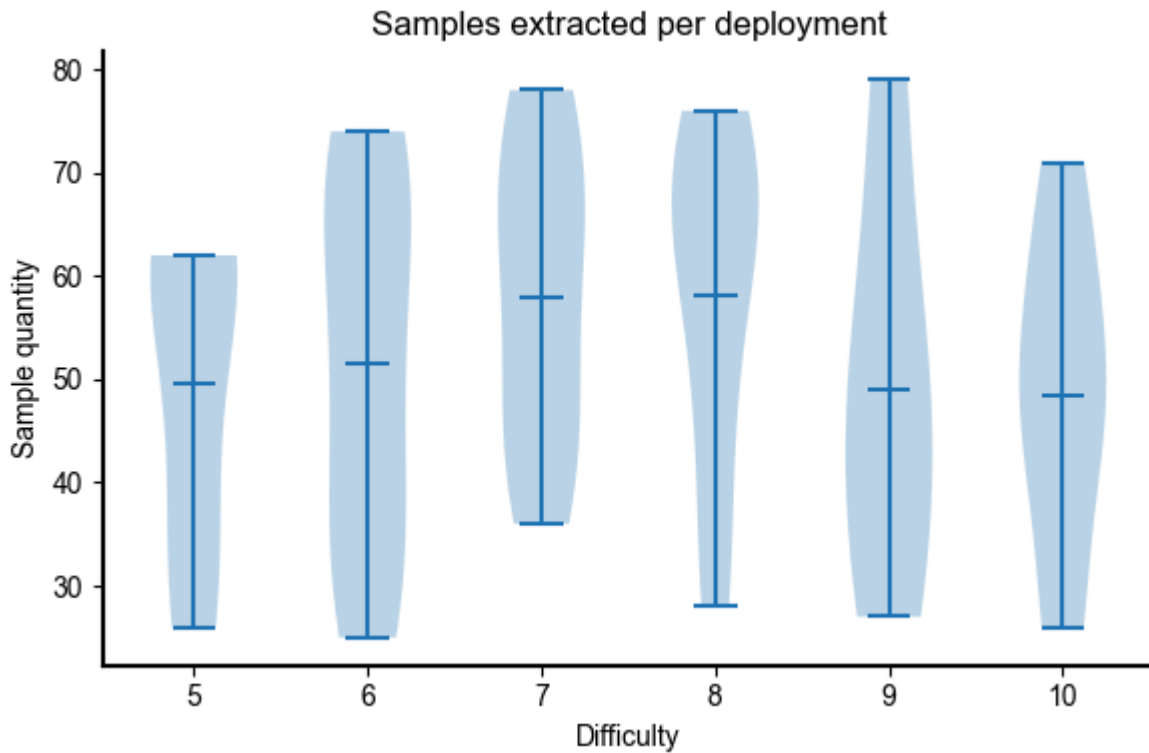

Helldiver casualties per deployment

Kill / casualty ratio per deployment

## Best performing fireteams

The 505th data departament would like to congratulate the helldivers that achieved the highest performace in this raid

The fireteam with the highest number of kills was Sirio\_Pengus\_Sloth\_Oracle, with 3554 enemies downed

The fireteam with the lowest number of casualties was Sirio\_Pengus\_Sloth\_Oracle, with 11 helldivers lost
